

REMARKS

Support for the amendment to Table 3 is found at page 74, line 14 – page 75, line 11. For example, page 74, line 16 specifically points out that block copolymer 1 was used. As such, the amendments to Table 3 correct a minor clerical error where the values were incorrectly placed in the wrong row. Favorable consideration of the amendment is requested.

Support for the amendment at page 92, line 12 is found at page 92, lines 10-11, which states that Examples 30-32 and Comparative Examples 20-24 are described. Tables 11-13 list the data for these examples.

Support for the amendments at page 95, lines 7-8 to page 96, line 19 is also found at page 92, lines 10-11, which states that Comparative Examples 20-24 are described.

No new matter is believed to have been added. Applicants submit that the amendments to the specification correct obvious errors. Favorable consideration of the amendments is requested.

Applicants respectfully submit that the present application is now in condition for examination on the merits, and request early notice of such action.
